1. Need Assessment

Deficiency of classrooms and basic facilities in schools leads to low attendance and increasing number of dropouts.

2. Objective

Improving school infrastructure through provision of missing facilities and construction of additional classrooms will increase school attendance and reduce school dropout rate.

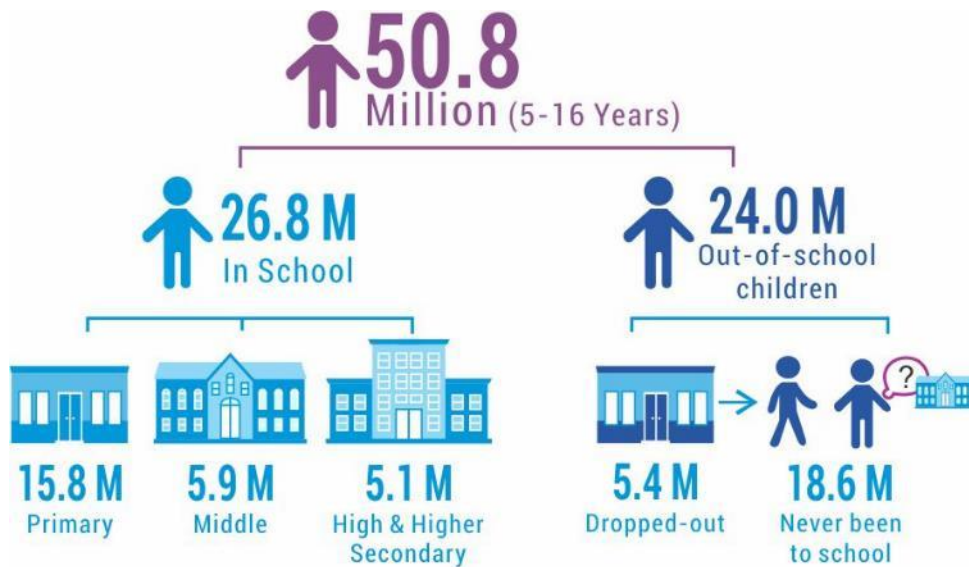

3. Beneficiaries

Children from disadvantaged backgrounds who are in urgent need and cannot afford their schooling.

3.1 Children from poor families are far more likely to be out of school

Quality basic education is something every child should get regardless of their social background and community to which they belong. In Pakistan, there are more than 24 million boys and girls between the ages of 5 and 16 who are not in school.

Source: Pakistan Education Stats

4. Opening Doors through Literacy

4.1 Non-Formal Education - Free Education for Impoverished Children

TMF is providing free education, books, uniforms, and stationery to the poor children. One teacher one school system with multi grade teaching constitutes the best mode of spreading light of education at the grass roots level.

4.2 Formal Education - Educating the Youth

Model Schools provide affordable formal primary and secondary level schooling to students who have merit but little means. Currently 14,416 students are studying in our schools. Our passing percentage in board examination is over 80%.

4.3 Technical Education

Two Technical Institutes at Khewra (Jehlum) and TMCE (Attock) offer short courses (plumbing, welding, quantity surveyor and home appliances repair & maintenance) as well as 3 years diploma (Electrical, Civil, and Dress Designing).

4.4 Vocational Training Centers (VTC)

TMF has established VTC that offer various short courses towards skills development.

5. Expected Outcome

By providing student sponsorships, TMF reduces the cost of education to impoverished families, enabling parents to send all their children to school. Education will enhance their social standing, economic independence and empower their decision making.

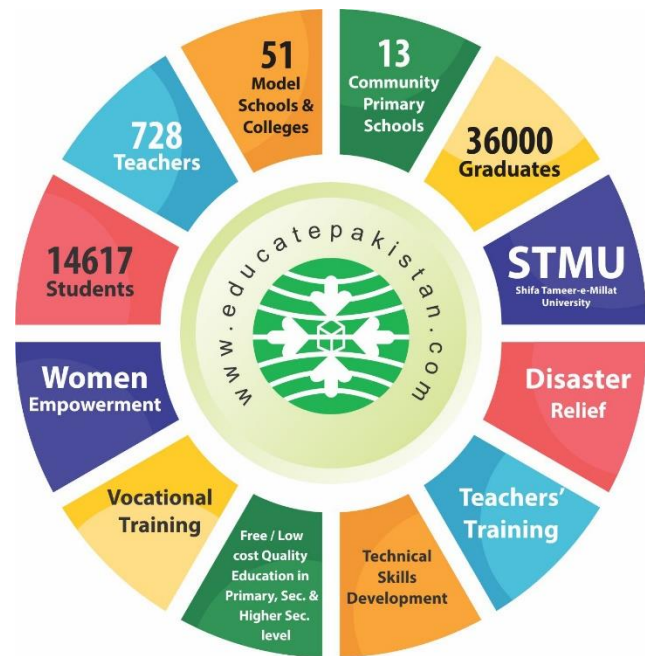

6. Introduction

Founded by (late) Dr. Zaheer Ahmad in 1987, Tameer-e-Millat Foundation (TMF) is a charitable, non-profit organization working for the promotion of education, skills development, women empowerment, and social welfare, with special emphasis to the underprivileged areas. TMF is registered under Societies Act, XXI of 1860.

After a consistent struggle of 30 years, TMF has established 13 Community Primary Schools, 47 Primary/Secondary Model Schools, 4 Degree Colleges, 4 Vocational Training Centers, and 2 Technical Institutes across 25 districts spread over all five provinces of Pakistan. Under the educational network of TMF 32,000 students have graduated so far. TMF is committed to providing quality education to uplift the non-affording communities of Pakistan, without any discrimination.

Mission

“Tameer-e-Millat Foundation aims to provide quality education to every individual, in all academic and professional disciplines, without discrimination of gender, race, religion, socio-economic status or ethnicity.”
